

Prof. em. Dr.
Carlo Marinello

Dear friends and colleagues,

I hope all members, friends and followers of the IADDM are doing well.

It's exciting to see how our young academy is attracting members from all continents. We especially invite our young friends to be not only part of the global interest in Digital Dentistry but also to actively form and prepare our Academy for the future challenges in this new and promising field. I will personally support you in your purposes for promoting Digital Dentistry in general and for shaping IADDM especially.

We are excited that the **3rd Annual IADDM Meeting** will be hosted at the Marriott Hotel in Berlin, December 8 and 9, 2017. December is a most beautiful time to visit Berlin. It allows you and your companions to prepare for a wonderful Christmas spirit.

After the short term necessity to change our meeting location from Istanbul to Berlin, the program chairs Dres Wael Att and Esam Tashkandi have put together in a short period of time an exceptional scientific program with lecturers from all over the world, a workshop with several practical aspects, a poster session and last but not least an exhibition presenting innovations and technological breakthroughs. At this point I thank the program chairs for the organization of the meeting and all the sponsoring companies for their invaluable support. Their investment in a future oriented direction in Dentistry and in IADDM is highly appreciated.

Truly, our 3rd IADDM meeting will not only be exceptional, but memorable. This is a "must attend" meeting including a state of the art program in digital dentistry. We look forward to welcoming you to Berlin and to sharing with you two extraordinary days.

Yours sincerely,

Prof. em. Dr. Carlo Marinello
President IADDM

3rd ANNUAL MEETING OF THE INTERNATIONAL ACADEMY FOR DIGITAL DENTAL MEDICINE

December 8-9, 2017, Marriott Hotel Berlin, Germany

Prof. Dr.
Wael Att

Prof. Dr.
Esam Tashkandi

Dear colleagues,

The third edition of our annual meeting will take place in Berlin. This year, focus is given to include more young talented researchers and clinicians in the field of digital dental medicine. We have a perfect lineup of speakers that will cover different aspects related to digital dental medicine. These digital dental medicine-related aspects include but not limited to: Implantology, orthodontics, surgery, conservative dentistry, prosthodontics, periodontology, dental technology as well as financial considerations for contemporary practice and technology. The combination of speakers covering all these aspects aims to provide the participants with a perfect and a broad-spectrum exposure to the latest developments and their implementation.

In addition the scientific program on Saturday, a pre-congress day will precede with a number of interesting workshops about innovations in digital dental medicine is planned. All of the workshops are accessible to the meeting participants without additional registration fees. Further, we have organized a poster presentation session on topics related to digital dental medicine. All IADDM members and non-members, especially those who are interested of sharing and exposing their innovations and findings at an international level are invited to submit their abstracts. The best 3 posters will receive attractive awards. Another new addition to the meeting is the grant for Best Educational Video in Digital Dental Medicine. Also here, all IADDM members and non-members are invited to submit their videos about topics related to digital dental medicine. The best video will receive a grant of 3000 Euros, supported by Zimmer Biomet.

Apart from the scientific program, the central location of Berlin as well as the enchanting timing of the congress will guarantee a wonderful and a joyful experience for the participants in Germany. As Christmas is in the same month, the city will be exceptionally vivid and cheerful with traditional Christmas markets at every corner. Clearly, the meeting will be a wonderful event to all participants. We look forward to welcome again all friends and colleagues and spend a great time in Berlin.

Yours sincerely,

Prof. Dr. Wael Att
Program Chair

Prof. Dr. Esam Tashkandi
Program Chair

GRANT FOR BEST EDUCATIONAL VIDEO IN DIGITAL DENTAL MEDICINE

With the support of Zimmer Biomet, the IADDM, and in order to promote the knowledge in digital dental medicine, IADDM has initiated a grant for the **Best Educational Video in Digital Dental Medicine**.

IADDM members and non-members are invited to submit educational videos (*not longer than 4 minutes*) about digital dental medicine as well as related techniques and innovations.

The best video will be presented at the **3rd annual meeting** and receive a grant of 3000 Euros.

For more information and submissions, please contact: info@iaddm.com

REDUCED REGISTRATION FEE FOR IADDM MEMBERS

As of the **3rd Annual Meeting of the IADDM**, members of the academy, regardless of status will enjoy reduced registration fee. The 2017 IADDM meeting fees for members are set to **150 Euros**.

As space for participants is limited, members who would like to attend the meeting are recommended to register as soon as possible.

For more information and registration, please visit:

Website: www.iaddm.com

JOIN IADDM NOW AND ENJOY THE BENEFITS

Becoming a member of IADDM will give you the chance of exposure to innovations and cutting edge technologies related to digital dental medicine. In addition, you will get to know and network with international colleagues with similar interests in digital dental medicine. Anyone interested in the objectives of the IADDM can become a member. There are four categories of membership:

Active Membership

Any individual concerned with digital dental medicine is eligible for Active Membership upon recommendation of the membership committee after having been an Associate for 4 years. Examples of individuals eligible for Active Membership are: Physicians, dentists, dental technicians, other health care professionals and researchers.

Associate Membership

Any individual concerned with digital dental medicine is eligible for Associate Membership. Examples of individuals eligible for Associate Membership are physicians, dentists, dental technicians, other health care professionals and researchers.

Corporate or Association Membership

Manufacturers of medical/dental materials, equipment and instrumentation, publishing companies, other commercial organizations and associations with a special interest in the objectives of IADDM as judged by the Executive Committee of the IADDM and ratified by the General Assembly.

Student Membership

Students in undergraduate-postgraduate programs (e.g. MD, DMD or DDS) can become a postgraduate Student Member.

Honorary Membership

Honorary Membership will be limited to individuals identified by the Executive Committee of IADDM and ratified by the General Assembly as having made an exceptional contribution to digital dental medicine.

For further information about the membership and the application process, please visit www.iaddm.com or send an email to membership@iaddm.com.
