

INTERNATIONAL ACADEMY FOR  
DIGITAL DENTAL MEDICINE

## CRITERIA FOR ACCEPTANCE

4th ANNUAL MEETING OF THE INTERNATIONAL ACADEMY FOR DIGITAL DENTAL MEDICINE  
December 10-11, 2018, The Yuluxe Sheshan, A Tribute Portfolio Hotel, Shanghai, China

Presentations will be selected on the basis of the scientific quality of the work as judged from the abstract. An impartial panel of reviewers will evaluate the content of each abstract. Selection of the abstracts will be made by these reviewers and the Poster Program Committee, whose decision is final. The Following are the evaluation criteria used in the review of abstracts. This is provided to call your attention to points that will be considered. It is important that the content be scientifically sound and grammatically correct.

### Notifications of Acceptance

The official notifications will be emailed in **October 2018** to all accepted presenters. All accepted presenters are expected to register for meeting.

Reasons for rejection are:

- The research is not innovative in its approach to the stated problem (methodology or data collection or analysis or data interpretation).
- Nature of problem not explicit from either title or abstract.
- Material too closely related to another abstract submitted by the same co-authors; they should have been combined into a single paper.
- Abstract poorly organized and/or not complete. Required information not given in abstract:
  - Purpose/Objective
  - Methods and Materials
  - Results (data and statistical analysis)
  - Conclusions
- Methods of obtaining data not appropriate with respect to the stated problem for the following reasons:
  - Methods not sufficiently precise to permit the measurements to be accurate, i.e., variations are within the error limits for the method.
  - Sampling method contains inherent discriminatory factors not recognized.
  - Size of sample insufficient to show significant conformity of differences.
  - No well-defined criteria given for evaluation of variables.
  - Choice of controls questionable.
  - No control groups reported.
  - Significance of results related to the nature of the problem being studied is not stated.
  - Conclusions do not necessarily follow as a consequence of the method of analysis applied to the data. Conclusions not adequately qualified. i.e., conclusions have greater limitations than implied by the author.
  - Correlations suggested may be fortuitous insofar as no plausible cause and effect relation has been suggested, and none is obvious.

### IADDM Poster Award Competition:

AWARDS will be presented to the best oral and poster presentations.

1<sup>st</sup> prize 500 EUR

2<sup>nd</sup> prize 300 EUR

3<sup>rd</sup> prize 200 EUR
